The section below summarizes the work done during the month of January 2020.

ACTIVITIES

Caring for HIV Positive People (CHIVPP)

During this month of January 2020, medical follow up and home visits were done for our HIV positive people.

Maternity Ward Building

FWA members have organized themselves to complete the walls of the second story. The pictures below show the progress of our building project.

In the month of December 2019, we were able to raise some funds for this building project through the Global Giving Foundation. The next step is the rafters and iron sheets.

Improving Women's Reproductive Health (IWRH)

FWA community health workers and FWA staff have continued to educate men, women and young people on the importance of family planning.

Rape Survivors' Support (RSS)

One three-day trauma healing workshop was done in January 2020.

My name is Goreth. I have experienced much violence in my home. I was always beaten by my husband. He even burnt my clothes. One day he beat me until I aborted. My neighbors found me when I was bleeding a lot. They transported me to the hospital but my baby was already dead. I didn't even see him because I had lost my consciousness. He sold our plot without notifying me. I have tried many times to go back home. But since my parents no longer exist, my brother refused to let me live with him. He told me that it's this way that a home is made.

One day I sold the pots I used to cook. This is how I got a small capital to start business. Now, I have divorced. Now, I'm renting a house and I'm raising my kids alone.

At the end of January 2020, we had a total of 70 self-help groups for a total of 1628 women.

The table below shows a list of nine SHGs initiated in the month of January 2020.
